THE DISCUSSION IS OVER
THERE'S NO BIG DATA ISSUE ANYMORE...

YOU MAY HAVE
BUSINESS
REASONS

DO YOU NEED TO FUSE DATA ?

DO YOU NEED TO INTEGRATE ?

DO YOU NEED TO SHARE DATA ?

DO YOU HAVE OPERATIONAL NEEDS ?

YOU MAY HAVE
TECHNICAL
REASONS

DO YOU HAVE MANAGEMENT NEEDS ?

DO YOU HAVE I.T. CHALLENGES ?

DO YOU HAVE BIG 3D DATA ?

YOU MAY HAVE
FINANCIAL
REASONS

YES / NO

? DO YOU NEED/WISH TO COMBINE MOBILE MAPPING & UAS MAPPING ?

? DO YOU NEED/WISH TO COMBINE OTHER DATA, SUCH AS AERIAL OR TERERSTRIAL SCANNING INDOOR DATA, OBLIQUE IMAGERY, GIS DATA, ... ?

? DO YOU NEED BIG DATA IN YOUR WORKFLOW ?

? WITH YOUR CONTRACTORS ?

? WITH YOUR CUSTOMERS ?

? AMONGST YOUR OFFICES?

? DO YOU NEED TO INTEGRATE BIG DATA IN YOUR SOFTWARE, WORKFLOW, OR HOST APPLICATION ?

? DO YOU NEED TO OVERLAY YOUR VECTOR DATA IN 3D ?

? DO YOU WANT TO EXTRACT FROM WITHIN YOUR HOST ?

? DO YOU NEED TO EXTRACT FEATURES OR OTHER DATA ?

? DO YOU NEED TO MAKE MEASUREMENTS ?

? DO YOU NEED POINT CLOUDS ONLINE ?

? DO YOU NEED SPHERICAL IMAGERY ONLINE ?

? DO YOU NEED TO BE IN CONTROL OF A PROJECT ?

? DO YOU NEED TO BE UP-TO-DATE ?

? DO YOU STRUGGLE WITH BIG DATA?

? DO YOU HAVE TO MUCH MONEY TO SPEND ON I.T. ?

VISIT 3DMAPPING.CLOUD ANYWAY.
THERE'S COOL STUFF FOR SMALLER DATASETS AS WELL

WELL, OK. YOU WOULD PROBABLY NEED OUR ON-PREMISES PUBLISHER GOTO WWW.ORBITGT.COM

FUSE
fuse any point cloud and imagery from mobile, aerial ,uas, indoor, and terrestrial mapping and include GIS data

INTEGRATE
embed in your website plugin into your host GIS or CAD software build custom applications enrich and empower

SHARE
invite any user set permission for each dataset publish to large audiance

OPERATIONAL
advanced measurements integrated workflows transparent use of img/pc (semi-)automated tools processing and analytics

BIG 3D DATA
no limits data volume LiDAR and Imagery GIS / CAD data

I.T.
outsource hardware and services no startup costs reduce IT cost by 80% update your plan any time

PROJECT MANAGEMENT
allow customer feedback share live updates view project status

IS
WWW.3DMAPPING.CLOUD
FOR YOU?

orbit
GEOSPATIAL TECHNOLOGIES

3Dmapping.cloud

SaaS-based Mapping & Data solution

View, Share and Analyse your 3D resources.

Easy access vast volumes of data from Mobile Mapping, UAS Mapping, Indoor Mapping, Terrestrial scanning or Oblique Mapping. The 3D Mapping Cloud relieves you of managing large datasets - the logical next step in a new and open approach to the collaborative use and re-use of complex data resources.

ORGANISE

UNLIMITED VOLUMES OF DATA

Orbit GT's 3D Mapping Cloud is the ultimate resource tool where users can upload, download, fuse and share, vast volumes of data coming from Mobile & UAS Mapping, Oblique Mapping, Indoor Scanning, Terrestrial scanning and traditional GIS/CAD data.

LIMITLESS

KEY BENEFITS

- ***Self Manage***
  - *Global Access*
  - *Data Catalog*
  - *No Installations*
  - *Easy and intiutive*
  - *Private Console*
  - *Self Service*
- ***Share** internal & external users*
  - *Share with all audiences*
  - *On the Fly*
  - *Invite users*
- ***Unlimited** Point Cloud size*
  - *Unlimited Image size*
  - *Unlimited CAD / GIS vector data*

FREE TRIAL

KEY BENEFITS

- ***Global access***
  - *Access from any Device*
  - *Access from any Plugin*
  - *Single Login*
- ***Viewing Power***
  - *Easily switch between views*
  - *Point Cloud View*
  - *Spherical Image View*
  - *Planar Image View*
  - *Isometric View*
  - *2D Ortho View*
  - *Stereo View*
  - *Combine 2D and 3D datasets on the fly*

VIEW, MEASURE, ANALYSE, ...

Fuse, view, measure and analyse various data types together on the fly. Combine, check and extract any information. Analyse and process in the cloud.

- ***Easy Measurements***
  - *Intuitive feedback*
  - *Analyse results instantly*
  - *Measure :*
  - *- Points*
  - *- (Poly)Lines*
  - *- Distances*
  - *- Areas*
  - *- Catenary Wires*
  - *- Volumes*
- ***Analyse***
  - *Tag*
  - *Inspect*
  - *Report*
  - *Export*
  - *Process*
  - *...*

ANY DATA

STREAMING

WHAT IS WWW.3DMAPPING.CLOUD

USERS, TEAMS, BUSINESS PARTNERS

Invite any user and provide permissions and roles. Organise in teams, and share data with individuals or groups. Bring in third party users to share with contractors, consultants, customers.

SHARE BY COUPON

KEY BENEFITS

- ***User Management***
  - *Invite Users*
  - *Assign Roles*
  - *Organize Teams*
- ***Permissions***
  - *Private, Team and Company wide permissions*
  - *Allow third parties*
  - *Self Manage on the fly*
- ***Administer***
  - *Account Owner*
  - *Billing Manager*
  - *Administrator*

SHARE

SHARE, PUBLISH, ...

Allow customers and contractors to directly access your data by permissions. Setup Publications for ready-made portals including 2D and 3D data.

ANYONE ANYWHERE

KEY BENEFITS

- ***Self Manage***
  - *Share with internal and external users*
  - *Share with public (Publication)*
  - *Share within applications (integrate SDK in websites, hosts)*
  - *Share on smartphone and tablet*
- ***Publish***
  - *Setup Workspace with selection of 2D and 3D data*
  - *Predefined views, selection of functionalities*
  - *With or without login*

INTEGRATE

FREE SDK

INTEGRATE ANYWHERE

Use the free SDK to embed the full functionality of the 3D Mapping Cloud into your application or website, on any device. Empower your teams and customers with unlimited resources.

JUST LOGIN!

KEY BENEFITS

- ***Free SDK***
  - *For website, smartphone, or plug-in-to-your-host development*
  - *JS and .Net versions available*
  - *HTML5 supporting all platforms and devices*
  - *High-level integrations possible*
- ***Use the Same Login as on the 3dmapping.cloud website***
  - *Same Viewing capabilities*
  - *Same Data Catalog Access*
  - *Same Functionalities*
- ***COTS Plugins***
  - *Ready to use Plugins developed by Orbit GT*
  - *Available for Esri ArcGIS Desktop, Esri ArcOnline as widget*
  - *AutoCad Map, QuantumGIS, Bentley Microstation*
  - *Brands are (c) of its respective owners. See www.orbitgt.com for plugin specifications.*

MORE BUSINESS

FREE SERVICE

SHARE, SELL & BUY @ MARKETPLACE

Get your hands on existing data for less
Offer your data a second life and sell again
Share availability of the Marketplace for free

KEY BENEFITS

- ***Want to Sell ?***
  - *Post your Data Specs*
  - *No need to upload*
  - *Specify how to contact you*
- ***Looking for Data ?***
  - *Search and Browse for Data*
  - *Contact Provider*
- ***Making the Deal***
  - *Agree on business conditions*
  - *Provider grants access to Data*
